# PTC Networks

WE BRING TO YOU SOLUTIONS BUILT ON **IoT** AND **AI** BREAKTHROUGH TECHNOLOGIES.

***Preg-Tech Communications** in conjunction with our partners **Teltonica Networks** is leading the park in the region to customize the networks that will enable smart cities changing outdoor advertising, Large scale video surveillance with remote access and much more.*

## Smart City Solutions on the Finger Tip

- 1) - Large-Scale Video Surveillance with remote access.
- 2) - Wireless Connectivity for mobile civil Education Exposition
- 3) - Connectivity for Drone field Deployment
- 4) - Data-Driven Outdoor Advertising
- 5) - Long-Distance Connectivity for Parking Ticket Machines.
- 6) - Wireless Parking Availability Data Transaction
- 7) - Remote Image Control Solution for Armored Trucks
- 8) - Solar powered wifi hotspots
- 9) - Interactive Remote-Controlled Playground System
- 10) - Highly Customised Secure Home Network with TCR100
- 11) - Safe and Simple to Setup Home Network with TCR100
- 12) - Pop-up Connectivity and Power Source for IoT Project
- 13) - Remotely Controlled Urban Irrigation System
- 14) - Teltonica Networks Enabling Autonomous Helium Miners in Remote
- 15) - Plug and Play Connectivity for EV Charging Stations
- 16) - Remote Calibration and Control Of Smart Traffic Lights
- 17) - Remotely Managed Surveillance Solutions for Logistics Center
- 18) - Sensor Powered Resource Optimisation in Cleaning Business
- 19) - Single Device for The Whole Construction Site Infrastructure Network
- 20) - FootFall Analytics For Optimised Public Transport
- 21) - Pop-up Activity for live Event Streaming
- 22) - IoT Preserving Ancient Underwater Treasures
- 23) - IoT for Reducing Risks in Construction Sites
- 24) - On a mission to Enable Access to Safe Cooking Oil
- 25) - Real Time Beach Occupancy Monitoring

- 26) - AI powered Cable Drum Storage Management.
- 27) - Mobile Vaccination Units
- 28) - Remotely Monitored Water Management System
- 29) - Secure And Reliable Internet Connectivity for Hotel Guests
- 30) - Temporary Camera Surveillance Solution .
- 31) - Event Live Streaming with HIKVision
- 32) - Face Recognition Access Terminal with fever and Mask Detection
- 33) - Digitalising Slot Machines
- 34) - Door Automation with DoorDeck
- 35) - Autonomous Delivery Robots Enhance Safety and Productivity
- 36) - Iot Enabled Remote Health Monitoring
- 37) - Autonomous Delivery Robots Enhance Safety and Productivity
- 38) - How IoT can help elderly homes
- 39) - Reliable Multi-camera connectivity
- 40) - Secure Connectivity for Remote Education
- 41) - Live Streaming of Religious Services
- 42) - Iot Improving Quality of Life for people with Disabilities .
- 43) - Seaport Wireless Connectivity
- 44) - Drive Through Testing
- 45) - Cellular Connectivity in Road Tax Industry
- 46) - Elevator Connectivity
- 47) - Public Surveillance and Information systems
- 48) - Public Lights NS concept
- 49) - LTE enabled printing services
- 50) - CCTV Construction Site Monitoring
- 51) - Intelligent Traffic System Connectivity
- 52) - LET Connectivity in Self Service Parcel Terminal
- 53) - EV Charger Management Circuit Control
